

# Bring On Tomorrow

Barry Manilow

Sleep baby, sleep  
Lose yesterday's blues  
When you're ready for morning  
Have I got news  
Our ship's in the harbor  
The street's turning gold  
Whatever you're dreaming, it's no longer on hold

Dream baby, dream  
While you were asleep  
I had mountains to climb and a promise to keep  
Now home is the hunter and holding the prize  
I'm waiting tell you when you open your eyes

Bring on tomorrow for me and for you  
We hung on through dark hours, dawn's overdue  
Bring on tomorrow and show me the sun  
We'll live it together 'cause you are the one

Smile baby, smile  
Through canyon's of night  
But you'll really be smiling by morning's light  
They told us we're crazy  
They promised I'd lose  
Forgive and forget them  
They're yesterday's news

Bring on tomorrow for me and for you  
We hung on through dark hours, dawn's overdue  
Bring on tomorrow and show me the sun  
We'll live it together 'cause you are the one

Without you it's nothing  
Why else would I climb?  
Together forever, hearts beating in time  
Oh...

Bring on tomorrow for me and for you  
We hung on through dark hours, dawn's overdue  
Bring on tomorrow and show me the sun  
We'll live it together 'cause you are the one
