

# New York City Rhythm

Barry Manilow

When my heart is torn apart  
By love I wish I had  
Well I spend my nights in the city's lights  
And things don't seem so bad  
You know the movement seems to soothe me  
And the tempo takes control  
And I lose my blues when the New York City Rhythm fills my soul

It's the New York City Rhythm runnin' thru my life  
The poundin' beat of the city's streets  
That keep my dreams alive  
I'm lost, I'm found  
I'm up, I'm down  
But somehow I survive  
It's got to be the New York City Rhythm in my life  
It's got to be the New York City Rhythm in my life  
In my life

When I'm out for love or sin  
Oh it's good to be in town  
In the funky dives, on the old West Side  
There's always something goin' down  
Yes, I live my life with strangers  
And the danger's always there  
But when I hit Broadway and it's time to play  
And you know that I don't care

Cause it's the New York City rhythm runnin thru my life  
The poundin' beat of the city's streets  
That keeps my dreams alive  
I'm lost, I'm found  
I'm up ,I'm down  
But some how I survive  
It's got to be the New York City rhythm in my life  
Oh It's got to be the New York City rhythm in my life  
In my life  
Oh got to, got to, got to be

You know the movement seems to soothe me  
And the tempo makes me high  
Its got to be the New York City rhythm in my life  
Oh its got to be the New York City rhythm in my life  
In my life  
Oh got to, got to, got to be  
The city in my life
