

# Slept Through The End Of The World

Barry Manilow

I see a ceiling  
Four walls  
Guess you all went away  
An hour ago we were laughing  
Lovers and friends  
Maybe that was yesterday

So what's the deal?  
Did I miss something real?  
When I slept through the end of the world

Nobody answers at all  
I call  
And there's nobody there  
How long since I've lifted my head now  
Crawled out of bed  
How long since anyone cared?

So now I lose?  
Lie alone in the blues?  
Cause I slept through the end of the world...

Losing is a story I remember  
Alone is a feeling that I know  
Been awhile since losing  
Shook me  
Took me down so low  
Yes it has...

How could this ride be all over?  
Four walls are all I see  
I'm tellin' the shadows and echoes  
Should'a told you  
But I was wrapped up in me

So here I wait  
Getting' used to too late  
Cause I slept through the end of the world...
