

# I Never Thought I'd Fall in Love with You

Barry White

When I first looked in your eyes  
I found out I was crying for a prize

I never thought I'd fall in love with you, no, not you  
I never thought that you would love me too

When I speak of love to you  
I know you wonder if it's true

I never thought I'd fall in love with you  
I never thought that you would love me too

When I'm making love to you  
It seems that's all I live to do

I never thought I'd fall in love with you, no, not you  
I never thought that you would love me too

As the hands of time do change  
My love for you, girl, will remain

I never thought I'd fall in love with you, no, not you  
I never thought that you would love me too

I never thought I'd fall in love with you  
I never thought that you would love me too

I never thought I'd fall in love with you, not you  
I never thought I'd fall in love with you  
I, I, I, I, I never thought that you would love me too

I never thought I'd fall in love with you  
I never thought that you would love me too  
I, I, I, I never thought I'd fall in love with you  
I never thought that you would love me too
