

# It's Ecstasy When You Lay Down Next to Me

Barry White

When we met, it wasn't quite clear to me  
What you had in store was there for only me  
Silly, you know you took me by surprise  
Then I turned and looked, I saw that message in your eye

There you were, I fell on the floor  
The way you move girl, only made me want you more  
I did not know you had me hypnotized  
There's a movement of your body dancin' in my eyes

I know I had to hold you and make you mine  
Don't want to control you, just to have a good time  
In ecstasy when you're layin' down next to me  
Oh no, no, ecstasy yeah, when you're layin' down next to me

I find it hard for me to concentrate  
If I don't make my move girl, it might be too late  
I've got to make sure you don't get away  
After all you done girl, to make me wanna stay

All my life I've been searchin' for a star  
Now my search is over and here we are  
Livin' in ecstasy yeah, when you lay down next to me, yeah  
Here in ecstasy when you're layin' down next to me

I wanna hold you and make you mine  
Don't want to control you, just to have a good time  
Livin' in ecstasy, well when you're layin' down next to me  
Ooh ooh wee, ecstasy

Ecstasy when you are here with me, well  
Girl it's ecstasy when you are here with me, uh huh  
And it's ecstasy when you are here with me, yeah  
Oh it's ecstasy, Lord knows when you are next to me, yeah
