

# Love Is in Your Eyes

Barry White

Your eyes... are the most beautiful eyes  
And I can see a tiny little light, shining bright from your eyes  
Sexy, sensual eyes... they say it all. The way you look at me...  
Baby, I start to feel something moving and stirring inside of me  
Can you feel it too? Can you?

You're like a dream in a movie scene  
The part when your eyes can't leave the stream  
A kiss in the dark, and you stole my heart  
Oh love

I love how it feels, exploding inside  
I've never ever felt this way in my life  
I want you so, and want you to know

Baby, in your eyes I can see the morning light  
Endless paradise, as we're moving through the night  
Love is in your eyes, I can see the morning light  
Endless paradise, gently moving through the night  
Oh, oh, oh...

One of a kind, you're simply divine  
Sending those shockwaves through my mind  
Holding you close, I need you the most

Baby, in your eyes I can see the morning light  
Endless paradise, as we're moving through the night  
Love is in your eyes, I can see the morning light  
Endless paradise, gently moving through the night  
Oh, oh, oh...

It's in your eyes, they say you're gonna be with me  
But not just tonight, yes I can see  
That maybe it's forever  
All the way - that's the only way I play  
The time is so right, for you and I  
To fly away on golden wings of love

Baby, in your eyes I can see the morning light  
Endless paradise, as we're moving through the night  
Love is in our arms, can't you see the morning light  
Endless paradise, gently moving through the night  
Oh, no, no...

Love is in your eyes, I see that morning light  
Endless paradise, making love all through the night  
In your eyes, in your eyes, it's in your eyes...  
Tonight, that light, so bright, shining bright...  
Your eyes, so bright...  
It's all there, in your eyes...

It's in your eyes... stay and be with me  
Stay here, close to me
