

You See the Trouble with Me

Barry White

I'm like a blind man who lost his way
I can't see nothin'
I'm like a deaf man who can't relay
Yeah, I can't hear nothin'

You see the trouble with me
I can't do nothin' without my baby
And as plain as can be
It's gonna drive me crazy

I walk the lonely streets late at night
Cold and lonely
Everything I do is wrong, never right
I'm lonely for her only

See the trouble with me
I can't do nothin' without my baby
And as plain as can be
It's gonna drive me crazy

See the trouble with me
I can't do nothin' without my baby
And as plain as can be, what do I do?
It's gonna drive me crazy

See the trouble with me
I can't do nothin' without my baby
And as plain as can be, what do I do?
It's gonna drive me crazy

See the trouble with me
I can't do nothin' without my baby
And as plain as can be
It's gonna drive me crazy
