

Dangerous Game

Bars and Melody

I'm not ashamed
To admit when I'm wrong
And I'm not to blame
I've tried and I've tried but I just can't give enough

Searching for the words but I can't get them out
I believed in my self now my heads full of doubt
I've got nothing left so I'm hoping you can hear
A cry for relief and I can't stop here
It's all that I can feel it's all that I can think of you
Are what you eat what about what I drink from
And I wanna find the source of this madness
I don't think that many people understand this

Surrounded myself in a torturous dream
Living like this isn't all that it seems
Do you know me, do you know me
I don't even know me

I used to trust myself but now I'm not so sure
I used to know myself but that was before
I find it hard to understand why people get so distant
I'm a human not just your assistant
I know what you're feeling I understand
I know it's hard when your angry it drives you mad
That void in your stomach you just want to rip out
And I know the feeling that your talking about

Surrounded myself in a torturous dream
Living like this isn't all that it seems
Do you know me, do you know me
I don't even know me
This life that we have is a dangerous game
We have control yeah and we take a blame
Do you know me, do you know me
I don't even know me

I can't explain what goes on in my brain

Though evil is bound when the serpents are have found
Let your aim remain steady though your eyes they are heavy
We are affected but we will also not stop
Until the end of everything until the time stops
Until the day we meet again
In my heart is where you will always be
Don't forget about me friend
Don't forget that you are free

Surrounded myself in a torturous dream
Living like this isn't all that it seems
Do you know me, do you know me
I don't even know me
This life we have is a dangerous game
We have control yeah and we take a blame
Do you know me, do you know me
I don't even know me

I don't even know me
