

# Animals Parody

Bart Baker

I've been a pop star for a long time.  
People's sexiest man alive  
Now it's time for me to be seen as a massive creep  
That's why in this video I look like a sick pedo  
And why I'm stalking a lady like she is fresh meat  
My beard's gross  
This video's all about me  
Maroon 5 is nowhere to be seen  
I'm showing off my abs and all of my tattoos  
I've done commercials bout acne  
I've got a show on NBC  
It is time that I show you what else I can do  
Yea  
I can stand in rain in a hoodie  
I can develop photography  
I can hump pretend hunks of meat  
I can act totally crazy  
I can take pictures on my smart phone  
I can smear blood on my hot muscles  
This is just like "American Psycho"  
Oh!

How do I make my voice so high?  
Breaks the windows every time.  
I use helium  
I inhale it from these balloons.  
When I sing it songs like the cry of a dog about to die  
That's why animals always show up to my shows  
Go away!  
This is the part I act real nuts and cover myself in raw meat guts  
Guess he forgot we're in the band too - d!ck!~  
I look so good it's all about me  
I am the one fans wanna see  
I'm damn sick of Adam's attitude  
This is Maroon 5 not Maroon 1  
Even though now there are 6 of us  
No one even knows who we are  
Adam you're always the damn star  
Nobody wants to watch this weird shit  
Of course they do especially this  
Check it out now he's acting like a wolf owooooo

Seriously Adam!? You didn't tell me you were going to pour blood all over me  
?  
Maroon 5, more like moron 5 - oh... [slap]

You're ruining our reputation  
This video's disgusting  
No it's artistic  
It's just sick  
We're tired of this shit  
What the hell are you doing guys?  
Don't worry it's a surprise  
That's totally fine as long as I get more screen time  
Oh you will!

I don't know why why why why

You tied me up I'm scared I'm too pretty to die die die  
No no no!

We won't kill you but you might want to commit suicide after what we have in  
mind

No no no!

And now it's time that we give you a taste of your own medicine by making you  
listen to your own voice!

I've been a pop star for a long time.
