

Touch

Basic Element

Why don't you touch me, I get down with your love.
Why don't you feel me, let me spin 'round and 'round
When I'm dancin',
When I'm dancin' with you.

Take you time well, well your mine.
Care no less no mind your fine.
Stay for good I know you will,
If you go my love you kill.
Gotta get you, no I gotcha.
Wanna kiss you, then I touch ya.
I'm the one that you want to want to,
Undress and get to get to.
Stay put, I know what you could,
If you got the possibility I know what you would.
I do like once, I never like twice.
But with you I want the rest of my life.
Love songs, I cannot cannot comprehend.
That is one thing that I can not mend.
Well I hope that I've got you got you.
What I want is to touch you touch you.

Why don't you touch me, I get down with your love.
Why don't you feel me, let me spin 'round and 'round
When I'm dancin',
When I'm dancin' with you.

I cannot say but I say what I want to say.
I do it bad but I gotta do it anyway.
If you go then the beat will come.
... like the pumps like a beat, like a drum.
Middle of... when there's nothin' to do.
If you wanna go I wanna enough for the road.
Touch me, touch me, I can touch you.
Baby make a move then I'll touch you too.
