

I Can't Deny

Basshunter

We connected from the start
Something you did touched my heart
Tell me you the feel the same

I just want you next to me
I'll never feel this way again
Tell me you the feel the same

'Cause I can't deny
Tell me you the feel the same
Tell me you the feel the same

I can't deny when I look at your smile
You make me feel weak inside and I can't deny
I can't deny when I look at your smile
You make me feel weak inside and I can't deny

The night that we first kissed, I'll never feel this way again
You're the one for me baby, can't you see?
I just want you next to me, tell me you the feel the same
Tell me you the feel the same

I can't deny when I look at your smile
You make me feel weak inside and I can't deny
I can't deny when I look at your smile
You make me feel weak inside and I can't deny
No, I can't deny
