

In Her Eyes

Basshunter

It's a saturday night
Nothing will go wrong
But if it does do I care ?
I just dont know how to run
It's a saturday night
And I hope you believe
My heart is calling your name
So hear me out when I say

I can see it in her eyes
When she turns to me and smiles
Everything feels so right
Until the morning light

I can see it in her eyes
When she turns to me and smiles
Everythingd feels so right
Until the morning light

"Are you ready to party "

It's a saturday night
Nothing will go wrong
But if it does do I care ?
I just dont know how to run
It's a saturday night
And I hope you believe
My heart is calling your name
So hear me out when I say

I can see it in her eyes
When she turns to me and smiles
Everythingd feels so right
Until the morning light

"Are you ready"

I can see it in her eyes
