

Hide From Yourself

Battlerage

Destruction of heaven,
destruction of hell
Welcome to the nightmare
Cry of the bells
Master of evil, master of doom
The voices of madness
are coming for you!

The fire caresses you,
your bloody cross
The giant gets up,
and covers the sun
You are just a victim,
you are the fool
You never woke up,
you never saw the moon!

Hide from yourself
You are the only one
Everyone will travel
With the storm

Hide from yourself
You are the monster
Everyone will come
To the metal show

The streets are dirty
You chase yourself
You're going crazy
It is time to wake up!

The devil comes and
starts to play
The devil comes and
starts to say:
You are the next one!
You are the next one!

Hide from yourself
You are the only one
Everyone will travel
With the storm

Hide from yourself
You are the monster
Everyone will come
To the metal show
