Break Away

Beach Boys

Break, break, shake away Break, break away Do what, do what I wanna do Time will not wait for me Time is my destiny Why change the part of me That has to be free The love that passed me by I found no reason why But now each day is Filled with the love That very same love That passed me by And that is why I can break away From that lonely life And I can do what I wanna do And break away from That empty life and My world is new When I laid down on my bed I heard voices in my head Telling me now, hey It's only a dream The more I thought of it I had been out of it And here's the answer I found instead (Baby, baby) found out It was in my head (Baby, baby) found out It was in my head (Baby, baby) found out It was in my head And I can break away To the better life Where the shackles Bever hold me down I'm gonna make a way For each happy day As my life turns around Come on We're free to break away (Oh, boy, you jump For joy when you break away) Now won't you come on

You're free to break away)

Come on you're free to Break, break away (Break away, break away)

Feel the vibrations In all the sensations Breaking away Feel the vibrations In all the sensations Breaking away
