In My Car

Beach Boys

When Im behind the wheel
Horses of gas and steel
The highway is my home
In fiberglass and chrome
Fantasy car shiny corvette
Lets take a ride you can't forget
Come on pretty lady ride with me

In my car
Im captain of my destiny
In my car
Pretty babe come cruise with me

Come for a drive And well arrive Feelin alive

Im master of my fate
When I accelerate
My new vette is my throne
When on the road we roam we roam we roam
Cruisin like were in a dream
Feelin like were still sixteen
Being a part of the great american scene

In my car
Im captain of my destiny
In my car
Pretty babe come cruise with me

Come for a drive And well arrive Feelin alive

Cruise cruise cruise with me baby Now move move up in the stratosphere Zoom zoom zoom with me darlin now Were still cruisin after all these Cruisin after all these years

Wind blowing in my hair
I feel like a millionaire
Radio is blasting strong
Were breaking out in song
Blazing trails both near and far
Park my car behind a star
Life is full of possibilities

In my car
Im captain of my destiny
In my car
Oh pretty babe come cruise with me

Come for a drive And well arrive Feelin alive In my car
Im captain of my destiny
In my car
Oh pretty babe come cruise with me
