

Isn't It Time

Beach Boys

I had to reach...
The music spinning in our head
Can't forget the feeling of
The magic of that summer love
Uh, I wanna take you there
Do you wanna turn back and they just
Remember is the photograph
The world is changed
And yet the game is still the same

R: Isn't it time we danced the night away
How about doing it just like yesterday?
Every time I think of you
All of things we used to do (2x)

Remember those nights we spent...
Little deep we know how the time will fly
Isn't it time, oh, oh
Isn't it time, oh, oh

But good times never have to end
Now is the time to let them happen again
We can have ourselves...
Good time... only in the past

R: Isn't it time we danced... (2x)

Isn't it time we danced the night away
How about doing it just like yesterday?
Every time I think of you
All of things we used to do

And as the sun goes down we...
To all the good times we share
Isn't it time we go ready again
Isn't it time we cross steady again?

R: Isn't it time we danced...

Remember those nights we spent...
Little deep we know how the time will fly
Isn't it time, oh, oh
Isn't it time, oh, oh

R: Isn't it time we danced...
