

## South Bay Surfer

## Beach Boys

Look out here come those South Bay surfers  
California's gettin' hot  
There they go cruisin' down that coastline  
Lookin' for their favorite spot

We'll find the big one

Oh the boys are rough and  
Ready to handle anything

They take the big one

They've got to be the best thing going  
South Bay surfers really swing

Okay rock out

Oh Chicago can't you hear them  
Hear that shore pound slam

(You're gonna eat it)  
(Smash!)

It rumbles clear to New York City  
Detroit back to old Miam  
Philly back to Alabam

You'll catch them surfing
