

# Summer in Paradise

Beach Boys

Way back when well our master plan  
Was havin' fun fun fun as America's band  
Well we came out rockin' with Rhonda and Barbara Ann  
Singin' of surf and sand

Now when we look back over all the fun we had  
If our lifestyle's over now it sure is sad  
We gotta get back to livin' without a care  
Give me sunshine water and an ozone layer

Paradise is a state of mind  
Where Mother Nature nurtures and man is kind  
We need a change now wouldn't it be nice  
If we could bring back summer

Get us back our summer  
Summer in paradise  
(Paradise)  
Summer in paradise (paradise)

They chop down the forests  
And in their haste leave a trail of destruction  
And toxic waste is leavin' no one safe  
In their home or their habitat  
Can't let it go like that

Too much consumption and too much greed  
When you consider all the people  
That are livin' in need  
Interdependence in this world is a natural fact  
And we're all under attack

It's the eve of destruction or so they say  
But mankind doesn't have to go that way  
If we all get together we can make things right  
And we can bring back summer

Get us back our summer  
Summer in paradise  
(Paradise)  
Summer in paradise (paradise)  
Summer in paradise (paradise)  
Summer in paradise

Surfers recycle now don't you know  
Like evryone from California to Kokomo  
We're gonna keep on rockin'  
And raisin' world consciousness  
We gotta fix this mess

Looked in the future and what I saw  
Was a world in harmony with natural law  
There's trouble now but it will be alright if we can

Bring back summer  
Get us back our summer  
Summer in paradise
