

Daydream

Beach Fossils

I'm not upset when you're around
I think I lose myself the second that I see I'm found
And not a day goes by
Or an hour without
Times I can't remember
What I'm thinking about
Cause my head's caught up
And tangled in those dreams

I go uptown
On a quiet day
Just to gather my thoughts
When I don't know what to say

And we go outside
When the morning's dark
And we fall in the grass
Of an open park
And the sun will break
When our hands hit the tree

I am on time
Though I didn't try
And the seconds move slow
But the moments all too fast

And not a day goes by
Or a moment without
Times I can't remember
What I'm thinking about
Cause my head's tied up
And tangled in those dreams
