

Common Girl

Beach House

You used to live
In this part of town
Until you hit the ground

She makes movies
Where she cries on cue
She still lives downtown

But it's ok
Cause she's common anyway
And the streets are all filled
With the strangers who pay the bills

She's the one
With the lazy eye
Promises never come filled

Takes the pills
And hides the notices
Cartoon rings of ill will

But it's ok
Cause she's common in every way
And the streets are all filled
With the strangers, pay the bills

Nobody special
Done a good thing
For somebody else

Taking advantage
Of that good thing
For nobody else
