

## Dive

## Beach House

Tell her something (Tell her something)  
Tell her nothing (Tell her nothing)  
Tell her that you waited

And I know you like it  
So you try to hide it

I was looking (I was looking)  
Out the window (Out the window)  
All the people waited

Tell her something (Tell her something)  
Tell her nothing (Tell her nothing)  
Tell her that you waited

And I know you like it  
So you try to hide it

And you know I like it  
So I dive to find it

Empires lost in confusion  
Golden hearts left of illusion  
You said my big imagination  
Shattered, flickered creation

And hide over the ocean  
Waves crash in chemical motion

Left of illusion  
Left of illusion
