

# I See You

Bear Hands

No shit  
You listen to your parents I know how quickly you're embarrassed  
Great white with ears like a rabbit  
It's a bad time don't make it a habit  
I see you  
I see you  
I see you  
I see you

Hold on to what you know and one hand takes shelter in your pocket  
You believe but you tell me your agnostic  
Oh pretender remember you're easy to read  
Oh surrender yourself to me  
A digital rendering of bones and chromosomes

Hold on to what you know because you know you can't hide for me  
I see you  
I see you  
I see you  
I seeeee you

Havent found the way  
Havent found the way  
Havent found the way  
To come and go  
Your eyes can't lie to me  
Betray the truth beneath them please  
Open up wide no tongue no teeth  
Dont speak dont need to  
I know you  
I see you  
I see you  
I see you  
I see you  
I see you  
I see you
