

All That You Are

Bear's Den

Goodnight
Don't cry
You never loved me like you think you did
And so long cold stone
There's nothing to say here, nothing will be done

I hope you find someone who loves you
For all that you are
I hope I find someone who loves me
For all that I am

I spoke with your sister
Told her I'm sorry
Told her we tried
Goodnight
Please don't cry
You never loved me like you think you did

I hope you find someone who loves you
For all that you are
I hope I find someone who loves me
For all that I am

All that I am
All that I am
All that I am
All that I am

I hope you find someone who loves you
For all that you are
I hope I find someone who love me
For all that I am
