

## Think of England

Bear's Den

You're not drinking as much as you used to  
I'm same old, same old  
And all those fires that died in our bedroom  
I was out fetching wood

Do you lie back and think of England  
Do you lie back  
Do you lie back and think of England  
With fireworks flashing  
Do you lie back  
Learn to feign your feelings.

You know I tried my best to love you  
To bear all your pride  
But you shook all the habits I gave you  
As you shake off the snow in your stride

Do you lie back and think of England  
Do you lie back  
Do you lie back and think of England  
With fireworks flashing  
Do you lie back  
Learn to feign your feelings.
