

## Mietzi's Song

Beatsteaks

You showed me colours I 'd never seen there was so much we used  
to share you took me places where I'd never been I close my eyes  
again and think of you I hear your voice with every passing  
day I see my sister's laughing face I think about the things you  
used to say I close my eyes again and think of you I see myself  
in you in all those little things you do took you in bed at  
night knowin' that everything's alright time slips away so fast  
sunny skies get overcast I know I can't be there beside you I  
can't be there to guide you I can't be there to hold you now.
