

## Pass the message

Beatsteaks

You got me now  
You know so c'mon  
and pass the message  
I feel you now  
You know it  
so let's get past the wreckage  
We go up we go down  
we get better  
So long so long so long  
c'mon you know they're waiting for us outside

It's in the air and all I care about is you  
Held in my hands you're all the drugs I need to do  
I can't keep quiet feeling indiscreet  
We may as well try it got me on my feet singin'

All alone don't leave me far behind  
And wherever you go you know you're always on my mind

Let's start it over again  
You got me now  
You know so go on and pass the message  
I feel you now  
you know it  
I don't need no second guesses

I can't keep quiet honestly  
You got me dancing in the street

All alone don't leave me far behind  
And wherever you go you know you're always on my mind  
Let's start it over again

Even on top of the world we get better  
Even if we get caught sometime  
You know we're gonna find the way  
This night is not over

I can't keep quiet honestly  
You got me dancing in the street

All alone don't leave me far behind  
And wherever you go you know you're always on my mind  
All alone don't leave me far behind  
And wherever you go you know you're always on my mind  
Let's start it over again  
This night is not over

(You got me now you know so c'mon and pass the message)  
(I feel you now you know it so so let's get past the wreckage)
