

If you got something to say
We're gonna set up
And start to play
Shine on everyone
Right or wrong
Get ready now, go ahead
And don't be afraid

I wasn't in showroom condition - ah
And I've been haunted by a mission

I made up my mind
We got plenty of time
And if you ain't got a clue
We start all over new
Now it's me and it's true

If you got something to say
We're gonna set up
And start to play
Shine on everyone
Right or wrong
Get ready now, go ahead
And don't be afraid

I've been haunted by suspicion
And I've been waiting for something to happen

I made up my mind
We got plenty of time
And if you ain't got a clue
We start all over new
Now it's me and it's true

If you got something to say
We're gonna set up
And start to play
Shine on everyone
Right or wrong
Get ready now, go ahead
And don't be afraid

It's all I ever dare
To see the colors you wear
It feels everywhere
There's nothing to compare

If you got something to say
We're gonna set up
And start to play
Shine on everyone
Right or wrong
Get ready now, go ahead
And don't be afraid
And don't be afraid
