

# Heaven

Bebe & Cece Winans

Now that it's over  
There's no more use for guns and war  
Cost me a lifetime  
Just to gain this life's reward

They say streets of gold  
Can you imagine somewhere  
Where life will never end  
No one ever grows old  
Oh, my brother please  
Come with me

It's what I live for  
A place where love will never cease  
Willing to die for  
Heaven is where I want to be

There are instructions  
We must follow to a tee  
In order to reach there  
And there is where I've got to be

Chorus

Repeat Chorus

No more nights  
There is a place  
Where there'll be no more crying  
He is the light  
Counting the days  
When we meet in that place
