

Our Mystery

Bebo Norman

Feels like a brand new day
And I know I'm not the same

Because I see you
And I need you
And I know I couldn't leave you if I tried
To walk away

Your love won't bring me down

I'm living a long, long life
And I will not let you go
It's taken a long, long time to get here
It could be a long, long night
But I will not let you go
Love will be our mystery

So let's leave this world behind
And see what we can find

Cause I don't need it
Or believe it
And I know I couldn't keep it if I tried
Cause you'd change my mind

Your love won't bring me down
