

Faith, Hope & Love

Beckah Shae

Even in your darkest days love will find a way
To show itself in everything you know it's so wonderful
And if you find a hurt that just won't go away
hope will find a way to prove itself true again
through the promise of a better day

Faith, hope, and love
Have a way of making life easier
If you could just believe them
aim for these and
Nothing can keep you down
it can be turned around

Faith, hope, and love
Are the only three that last forever
They will always be all that you need and
Just keep your head to the sky
and you will learn to fly
faith, hope, love

So many seasons come and go
and we never know
Just what the next day brings
you know it might just be beautiful
And when you see beyond your eyes
that's when you'll know
Faith will find a way to reveal truth to you
Ready to take you on a joy ride

Faith, hope, and love
Have a way of making life easier
If you could just believe them
aim for these and
Nothing can keep you down
it can be turned around

Faith, hope, and love
Are the only three that last forever
They will always be all that you need and
Just keep your head to the sky
and you will learn to fly
faith, hope, love

And faith is the certainty
in all that you can't see
Faith is being so sure of
all that you hope for, eternal glory
My hope is fixed on a place
where I can behold Your face
Your grace, oh and Your mercy
And now I know that Your love is all that I need
Cause I believe in You I am free!

Faith, hope, and love
Have a way of making life easier
If you could just believe them
aim for these and

Nothing can keep you down
it can be turned around

Faith, hope, and love
Are the only three that last forever
They will always be all that you need and
Just keep your head to the sky
and you will learn to fly
faith, hope, love
