

# No More

Beckah Shae

Get behind me I'm coming through  
I'm armed and dangerous  
I'm like an army that's fed up with you  
Commanding you must  
Get out my way and go back  
To where you came from  
Oh! Go! I'm telling you, no more!

I'm sick and tired of all you're lies  
Nothing you say could make me  
Agree with you, I know the truth  
Nothing you do could break me  
You just don't know who your messing with  
I'm a warrior

Oh! Go! I'm telling you, no more!  
The weapons of my warfare  
They are not carnal

Oh! Go! I'm telling you, no more!  
The weapons of my warfare  
They are not carnal

The victory is mine  
I'm taking back everything at least seven times  
I raise my sword and make you wish  
You never even tried  
I'm telling you, No More!

All your attempts are only making me stronger  
Your strategy ain't fooling me any longer  
I see you loud and clear  
You can't hide, but you can run  
Oh! Go! I'm telling you, no more!

You best be leaving now  
Cause I'm about to bring some glory  
You lose, and thanks again  
For giving me an awesome story  
You just don't know who you're messing with  
I'm a warrior  
Oh! No! I'm telling you no more!

Oh! Go! I'm telling you, no more!  
The weapons of my warfare  
They are not carnal

Oh! Go! I'm telling you, no more!  
The weapons of my warfare  
They are not carnal

The victory is mine  
I'm taking back everything at least seven times  
I raise my sword and make you wish  
You never even tried  
I'm telling you, No More

I'm not afraid cause I'm not alone  
So be on your way  
There's nothing here for you  
The battle's already won  
You ain't worth my time  
I ain't messing with you no more  
Crushed on the floor  
You ain't done nothing  
But make me a better warrior!  
So I'm telling you, no more!

The victory is mine  
I'm taking back everything at least seven times  
I raise my sword and make you wish  
You never even tried  
I'm telling you, No More!

The victory is mine  
I'm taking back everything at least seven times  
I raise my sword and make you wish  
You never even tried  
I'm telling you, No More!
