

Without You

Beckah Shae

when I just don't have the words to say
when I just can't think of anything
I pause, and wait, for you
and you come, you come
and fill me with truth
then you meet my silent space with your face

I, I, I can't breathe without you, I need you
I, I, I can't speak without you, I need you
I, I, I can't see without you
I, I, I can't be without you

I, I, I can't hope without you,
can't dream without you,
can't live, can't be without you,
i need you

when i ain't got the strength to move
when I'm left with nothin' to lose
I pause, and think, of you
and you come and show me the truth
and you fill this lonely place with your embrace

I, I, I can't breathe without you, I need you
I, I, I can't speak without you, I need you
I, I, I can't see without you
I, I, I can't be without you

when I'm with you, nothin' matters
everything else fades away
when I'm with you, nothing never stays the same
it just gets better
and you, and you, are all I need
I've come this far
because i know you are all I need

I, I, I can't breathe without you, I need you
I, I, I can't speak without you, I need you
I, I, I can't see without you
I, I, I can't be without you
