It can be hard at times to realize the gift we've all been give n

If we just believe, it'll set us free

We don't always spend our lives the way we should, just ask and be forgiven

Give me the strength I need, give me clear eyes to see

I fell off the map, been there before This world is far from perfect Just give it a chance if nothing more This life is more than worth it

Give me the strength I need Give me clear eyes to see Give, give it all I need Everything

Take it away, take it away
Our world full of pain, make it okay
Everything
(whoa oh oh oh oh oh oh)
(whoa oh oh)
Tell me what can we do
The choices we made
The words that you say
Make it okay
Everything
(Whoa oh oh oh oh oh)
(Whoa oh oh)

I fell off the map (whoa)
I've been there before
I've lost everything (whoa) (everything)
But you give me more

You've given all we need To be Everything
