

## Faith

### Before Their Eyes

You're standing on the shoulders  
Of a giant belief  
I can't believe what you told us  
You're just a liar to me

Just be honest, honestly I'm sick of all your games  
Only time will tell you're fake 'til our judgement day

Oh no, where did your heart go  
You've been dressing up in sheep's wool  
Dancing with the devil  
Oh no, where did your head go  
Did you think that you could fool us  
With another twist of faith  
Twist of faith

It's not about who's louder  
It's not a trophy you wear  
I swear you're not a martyr  
Eternity in despair

Just be honest, honestly I'm sick of all your games  
Only time will tell we're realizing all your charades  
Just be honest, honestly I'm sick of all your games  
Only time will tell you're fake 'til our judgement day

Oh no, where did your heart go  
You've been dressing up in sheep's wool  
Dancing with the devil  
Oh no, where did your head go  
Did you think that you could fool us  
With another twist of faith  
Twist of faith

Don't fake it  
Don't waste it  
These words are not for you  
Don't fake it  
Don't waste it  
Your words are not the truth

Oh no, where did your heart go  
You've been dressing up in sheep's wool  
Dancing with the devil

Oh no, where did your heart go  
You've been dressing up in sheep's wool  
Dancing with the devil  
Oh no, where did your head go  
Did you think that you could fool us  
With another twist of faith

Oh no, where did your heart go  
(Don't fake it, don't waste it)  
You've been dressing up in sheep's wool  
(These words are not for you)  
Dancing with the devil

Oh no, where did your head go  
(Don't fake it, don't waste it)  
Did you think that you could fool us  
(Your words are not the truth)  
With another twist of faith
