

Here

Before Their Eyes

I was ready for lift-off
Ready at all cause
Searching for you
I tried searching before this
Without a rocket
But there is no use

You could've been the girl on my corner with your headphones on
Listen to your rock'n'roll
You could've been the girl getting warmer underneath the sun
That I would never know

Love's got a way
Walking round by our sun
Never showing its face
For any time undone
We try and try to find the world
Where we think that no one near
But if it's meant to be
Then we're meant to be
Here

I was ready for leaving
Done with believing
In someone like you
I was alone and careless
Without a purpose
I had no clue

You could've been the girl on my corner with your headphones on
Listen to your rock'n'roll

You could've been the girl getting warmer underneath the sun
That I would never know

Love's got a way
Walking round by our sun
Never showing its face
For any time undone
We try and try to find the world
Where we think that no one near
But if it's meant to be
Then we're meant to be
Here

Maybe I should open up my eyes
And see I've been right this whole time

Love's got a way
Walking round by our sun
Never showing its face
For any time undone
We try and try to find the world
Where we think that no one near
But if it's meant to be
Then we're meant to be
Here

We were meant to be here
We were meant to be here
If it's meant to be
Then we're meant to be
Here
