

## My match your fire

### Before Their Eyes

I can tell we don't belong  
By the way you look in my eyes  
I can bet you moved right on  
Baby cause I'm just another good bye  
I can tell it's over now before you ever said a word to me  
You can take a final bow honey cause your act is like a 3rd degree

Whoa, you've struck the last match with me baby.

You've got me burning  
What did I do to deserve this burning  
You bring me down when I'm all I've got  
I never know cause my mind keeps turning  
Why oh why  
You're only happy when I'm not

I can tell that's something's wrong  
By the way you look in my eyes  
I can bet the warmth is gone  
cause honey your stare is like the black ice

Cause you lit this fire  
What did I do to deserve this burning  
You bring me down when I'm all I've got  
I never know cause my mind keeps turning  
Why oh why  
You're only happy when I'm not

You've got me burning  
You've got me burning baby

What did I do to deserve this burning  
You bring me down when I'm all I've got  
I never know cause my mind keeps turning  
Why oh why  
You're only happy when I'm not
