

# Watch Me Bleed

## Being As An Ocean

How do you call it balance  
When you shake in the knees?  
You think you'll know when it happens  
When you're faced with your destiny?  
Are you up to the challenge?  
Accept your every cell  
Treat every day as a practice  
You'll get used to your time in hell

Never had a say in this, it's just who I'm meant to be  
Fate cuts and weaves  
Not afraid to take a step, death's forever-following

Come and watch me bleed  
Come and watch me bleed  
Come and watch me

Looks like you're believing in magic  
The spells you cast to succeed  
I think I know what's happened  
Yeah, we're all too scared to bleed  
Do you think you can manage  
Learn to live with yourself?  
There's beauty hidden in damage  
You'll get used to your time in hell

Never had a say in this, it's just who I'm meant to be  
Fate cuts and weaves  
Not afraid to take a step, death's forever-following

Come and watch me bleed  
Come and watch me bleed  
Come and watch me

Come and watch me bleed  
Come and watch me bleed  
Come and watch me  
Come and watch me bleed  
Come and watch me bleed  
Come and watch me  
Come and watch me bleed  
Come and watch me bleed  
Come and watch me  
Come and watch me bleed  
Come and watch me bleed  
Come and watch me

Never had a say in this, it's just who I'm meant to be  
Fate cuts and weaves  
Not afraid to take a step, death's forever-following

Never had a say in this, it's just who I'm meant to be  
Fate cuts and weaves  
Not afraid to take a step, death's forever-following

Come and watch me bleed  
Come and watch me bleed

Come and watch me  
Come and watch me bleed  
Come and watch me bleed  
Come and watch me
