

What A Shame

Belanova

You know my name
You Know my game
You know my face
But you don't know me

My heart is here
Your heart is there
They're so near
But you don't love me

What a shame, what a shame
What a shame, what a shame

You know my name
You know my game
You know my face
But you don't know me

My heart is here
Your heart is there
They're so near
But you don't love me
No, no, no
