

Over The Line

Bellamy Brothers

Daybreak on the highway, I guess I drove the night away
It's hard to leave yourself behind
The devil take the state law, god it's such a long haul
Lookin' for an exit sign
Somethin' in my rearview, I guess they always find you
Livin' over the line

CHORUS

Over the line I thought the road was mine
Over the line I thought I was doin' fine

Some don't have a mother, some don't have a father
Some don't have a lot to lose
All they know is hard times, and burnin' up the white
lines
I'm burnin' up the highway blue
Somethin' in my rearview, I guess they always find you
Livin' over the line

CHORUS

Oh and I tend to keep on strayin'
So they keep on drawin' lines
Lord I love the music
Of that engine when she wines
