

# Planet Of Love

Belle Perez

Mmm mmm yeah yeah yeah oh yeah

Hi there, its me again  
Let me lend your ear for just a minute  
Here's something you should know  
I made a wish and you were there  
I said hey it's a lovely day,  
I turned around as if I knew you  
Turned around with a big big smile  
There was magic everywhere  
Ooh, we had a great time baby  
We knew it would never end  
Hey yeah...my oh my  
Now I think we understand

We're spinning round and round  
Just like the planets do  
But in this universe I'll fall in love with you  
I've been searching high and low  
I've been way down and up above  
When I finely found you  
On the planet of love

Yeah yeah mmh mmh  
Say yeah  
Let me take you there,  
I show you life in all it's beauty  
You turned around big big smile  
There was magic everywhere  
Ooh we had a good thing going  
We gotta keep holding on  
Hey yeah...my oh my  
You're shining like the sun

Take a look around you  
Just wait and see  
When love has finally found you  
You will agree, yeah yeah,  
I need you,  
I need you, oh yeah yeah  
Spinning around and around and around,  
I'm you're planet of love  
Ooh, come to me, come to me baby

On the planet of love  
We're spinning around and around and around  
I'll fall in love with you,  
Way down and up above  
until I finally find you on the planet of love

Yeah mmm mmm
