

Mine

Belly

Creature of mine
We lie side by side again
Creature of mine
We lie in the shallow of the bed

Who feels it too?
Do you? Do you? Do you?
Who sees them too?
Do you? Do you? Do you?

All the eyes I've met with mine
Miles and miles of eyes
All the gents who stole my breath and not a one was mine
Like you are mine

Creature of mine
You light the fire while I dull the blade
Oh creature mine
You run the wire while I drive the prey into the snare

Who feels it too?
I love you
Who
You see it too
I know you do

All the eyes I've met with mine
Miles and miles of eyes
All the gents who stole my breath and not a one was mine
Like you are mine

All the eyes I've met with mine
Miles and miles of eyes
All the gents who stole my breath and not a one was mine
All the night, mine
All the day, mine and mine and mine
Nothing else was ever meant
And no one else was mine
