

# Don't Take That Attitude to Your Grave

Ben Harper

You say what's mine is mine  
And what's yours is mine too  
Now you've got more than you can spend  
But all of the money  
In the whole wide world  
Is not gonna help you in the end  
Now while there's still time to be saved  
Don't take that attitude to your grave  
Might be too late for you I'm afraid  
Don't take that attitude to your grave  
Don't you take it there

I hear helicopters  
Over my house every day  
Shining their lights and flying low  
Treat a child like a criminal  
From the day that he is born  
And you're gonna reap just what you sow  
Now while there's still time to be saved  
Don't take that attitude to your grave  
Might be too late for you I'm afraid  
Don't take that attitude to your grave  
Don't you take it there

So you can move your court case  
Way across town  
You can move it across the whole wide globe  
But it ain't gonna help your court case  
Up in the sky  
When you go to put on your white robe  
Now while there's still time to be saved  
Don't take that attitude to your grave  
Might be too late for you I'm afraid  
They don't want it there  
Don't you take it there

And you dare the children  
To stay off of drugs  
Now I dare you to stop letting them in  
And how dare you point your finger  
At a gang out on the street  
While it's you who is committing the sin  
Now while there's still time to be saved  
Don't take that attitude to your grave  
Might be too late for you I'm afraid  
Don't take that attitude to your grave  
Don't you take it there  
They don't want it there  
You know your mother taught you better  
Don't take that attitude to your grave
