

# Never Leave Lonely Alone

Ben Harper

Like an old man  
Sitting alone at a lunch counter  
Never leave lonely alone...  
Like a small town girl  
A big city devours  
Never leave lonely alone...  
Some of us laugh  
Even in our darkest hour  
Never leave lonely alone...

Unspoken rules of solitude  
Wound without a trace  
A lifetime of dreams roll down your face  
All that we can't say  
Is all we need to hear  
When you close your eyes  
Does the world disappear

There's something in everyone  
Only they know  
Never leave lonely alone...  
It moves in the hidden ways  
Of joy and sorrow  
Never leave lonely alone  
Never leave lonely alone...
