

# Fallen

Benea Reach

Fallen from the sky towards the ground  
No longer strong and proud  
Like you used to be

Your strength and your pride - Fading  
Your strength and your pride - Fading away

Look at you now  
Without your confidence  
If only you could see what I see  
And believe like I believe - In you

Fallen down from the sky, hitting the ground  
You have made it through safe and sound  
Only bruises and scars  
Now you are stronger than you were then  
So spread your wings and fly once again

Stronger, falling down has made you stronger  
Rising up made you stronger  
Falling down and rising up has made you stronger

Your strength - Regaining - Your pride

You will be  
Rising from the ground towards the sky  
Even more strong and proud  
Than you used to be
