

Rose Garden

Beres Hammond

Do you know what I'd like to do right now
I'd like to lay right down girl
And put my arms around you
Wonder where will I be let's say six years from now
I wish that I could still be with you
Now if I had it in my hand control your every move
Now here is exactly what I'd do

I'd put you in the middle of my rose garden
And I would never never have to say pardon
To the daises the tulips the buttercups
Not even the roses and I'd water you first every
Morning the other flowers would have to start
Calling give me some water please
We too need to grow

Wonder where will I be
Let's say ten years down the road
Search my heart and constantly you're there
Can't get you out of my system and I like this living
It's so wonderful that you and I can share

Time will change us never
Nature's gonna keep us together
Time will change us forever
Know our love will last so I shouldn't even ask
Where will I be, will you be there with me
Can't get you out of my system and I like this living
I've searched my heart, it always sets me free
Time will change us never
Nature's gonna keep us together
Time will change us never
Nature's gonna keep us forever
