

## Sing Glory

Beres Hammond

He gave us life, he gave us dreams  
Still some people act like we're still in chains  
When there's so much in life  
To live for and to be thankful for

You should a sing glory now  
Sing glory glory now  
Sing glory now, sing glory

Praises for the sun and the moon  
We thank you for your light  
Praises be for the rain and the breeze  
Most important to life  
Praises be to life itself  
Even when days are bad  
And when I rise to see another day  
Glory be to God

Children of god don't worry too much  
A new day is on the rise  
Don't be discouraged be strong my friend  
You're bound to win your big prize  
Come my little sister, please my little sister  
Bear out with your man  
It's not everyday the seas gonna be rough  
The sun is bound to come

There's so much in life  
That we should be thankful for  
He gave us life, he gave us dreams
