

Help Me Through The Day

Bernard Allison

Help me thorough the day
Help me through the night
Darling your sweet loving
Will make everything alright

Help me through tomorrow
When stormy weather comes
And make me realize
That you my woman

I can see so much pain
Deep inside your eyes
I know someone has hurt you
Some man has made you cry

Baby don't confuse me
Just try to understand
And make me realize
That you my woman

Help me thorough the day
Help me through the night
Your sweet loving
Will make everything alright

Help me through tomorrow
When stormy weather comes, lord
And make me realize
That you my woman
That you my woman
That you my woman
That you my woman
