

There's No Higher Love

Bernard Allison

There is no contemplation
When it comes to you and me
Life presents all it's problems
You're my remedy

No need to worry
Our love was meant to be
No doubt about it
Once love comes it never leaves

There's no need to worry
When it comes to another love
You were sent to me from heaven
From the Lord up above

You're the dream I've been dreamin'
In reality
No doubt about it
Once love comes it never leaves
Once love comes it never leaves

There is no contemplation
When it comes to you and me
Life presents all it's problems
You're my remedy

I want you forever
You're all the sugar I ever need
No doubt about it
Once love comes it never leaves

For me there is no higher love
For me there is no higher love
For me there is no higher love
For me there is no higher love
