Hope & Validation

Bernard Fanning

Plans and preparations are decided in vain Think we've seen enough now Hope and validation are united again

Higher than the buds that bloomed I've seen it hanging in your face you may need time to think it over

Set a new direction for the harvest ahead think we've seen enough now Built the resurrection of a bond nearly dead Seen enough now

Higher than the windswept moon I've seen it hanging in your face You may need time to think it over

Plans and preparations are decided in vain Hope and validation are united again Set a new direction for the harvest ahead Built the resurrection of a bond nearly dead

Think we've seen enough now Think we've seen enough now Think we've seen enough now Think we've seen enough now
