

Everything

Berner

[Berner:]

Bigger picture, I just need to stay vigilant
My biggest enemy is other people's ignorants
I went from buying cars to buying [?] and realstate
And kept my circle tight, cause they just wanna infiltrate
I'm rolling fish scale, that's my newest strane
Yeah it really numb the pain
They don't get it like us, they don't hustle in the rain
Me and Wiz killing shit, hundred thousand dollar days
What you smoking? This shit'll make your lungs hurt
Like you're suffering from Covid
[?] float around loaded
Fresh box of Gary, I already sold it
I went platnom in the street
Put your plug in position, I get payed when I sleep
Roll another one, yeah skittles with the honey bun
And it tastes just like bubble gum

[Wiz Khalifa:]

Roll another one up, take the pain away
Roll another one up, take the pain away
Roll another one up, take the pain away
Take the pain away
It's all that I can do
Roll another one up, take the pain away
Roll another one up, take the pain away
Roll another one up, take the pain away
Take the pain away
It's all that I can do

I'm smoking like the cops don't exist
In the car where the top don't exist
Got a pound, and I go down if I get caught for it
Motivation, hating niggas what this not for
I come from a city of broken dreams
Where niggas stay down, but they hope and skeme
They got they own, but they'll take your's
You tryna ball, I'm tryna own a team
I'm getting payed, that's how it posed to be
These labels studdy my DNA, they tryna clone a G
But they couldn't take it if they wanted
Got my lane, and I control it
Brought an ounce for the road, cause it might get blown
Fans stand front row, every night's a show
Burning good weed, counting as I fade away
You can trust that the realest is, always was will be us
So I just

Roll another one up, take the pain away
Roll another one up, take the pain away
Roll another one up, take the pain away
Take the pain away
It's all that I can do
Roll another one up, take the pain away
Roll another one up, take the pain away
Roll another one up, take the pain away
Take the pain away

It's all that I can do

[Berner:]

4 or 5 jerky bags

Just [?] in 09, all the work we had

I was making drops, dirty in a taxi cab

[?] and all the ass we grabbed

We were smoking out in france

The whole hotel smelled like a fresh plant

I brought the Cali weed, I'm at the coffee shop

Stuck like a traffic jam

All these bottles got the club looking mainy

Cold Champagne and [?]

I tell a pretty bitch pay me

I'm from the Yay area, how can you blame me?

And [?] top shelf

Still in the street, tryna stay away from hot shells

And when the shit get rough

I get a [?] and turn it into the perfect [?]

Do what

[Wiz Khalifa:]

Roll another one up, take the pain away

Roll another one up, take the pain away

Roll another one up, take the pain away

Take the pain away

It's all that I can do

Roll another one up, take the pain away

Roll another one up, take the pain away

Roll another one up, take the pain away

Take the pain away

It's all that I can do
